

VBS 300

Vacuum bag sealant tape for use at temperatures to 140°C

Tygavac Sealant VBS 300 is a low cost vacuum bag sealant tape which has been developed to form a vacuum tight seal between the bagging film and tool. It is suitable for use on 125°C cure cycles. The tape has high tack, which enables quick adhesion to both the bagging film and tool surface. At the end of the cure cycle, it can be removed from the tool surface without leaving residues, with consequent savings of clean up time and potential tool damage during cleaning.

To facilitate handling and application, the tape is supplied in roll form with a release paper interleave.

Typical Properties

Operating temperature range	Room temp to 140°C
Solids content	100%
Colour	White
Shelf Life	12 months when stored at 22°C

Availability

3mm x 12mm x 15m rolls

22 rolls per case

Custom size available on request
