

VBS 550 Vacuum bag sealant tape for use at temperatures to 195°C

Tygavac Sealant Tape VBS 550 is an economical high temperature mastic strip sealant for vacuum bag moulding. With moderate tack, the product has been developed to adhere well to both bagging film and tool.

Exposure to temperatures in excess of 120°C cures the tape to a tough elastic strip which enables it to be removed easily from the composite and metal tooling without leaving residue, with consequent savings in clean-up time and potential tool damage. There is no flowing or foaming during cure.

To facilitate handling and application, the tape is supplied in roll form with a release paper interleave.

Typical Properties

Operating temperature range	120°C - 195°C
Solids content	100%
Colour	Black
Shelf Life	12 months when stored at 22°C

Availability

3mm x 12mm x 7.62m rolls
40 rolls per case
